

## **High Jump Information**

The state high jump competition format has not changed; however, we have had multiple questions on how the competition will be conducted. The state high jump competition will use five alive as long as fifteen jumpers are still remaining in the competition. Once the competition is below fifteen remaining participants, the competitors will go straight through the flight order. Also, if there are eight or fewer jumpers remaining at a height that began with fifteen or more jumpers, five alive will be abandoned and the remaining jumpers will go straight through the flight order.
