

Road Construction around Drake Stadium

As you are planning your trip to the state track and field meet, we want to make everyone aware of road construction around Drake Stadium, so the appropriate plans can be made. Forest Avenue, the street directly south of Drake Stadium, is down to one eastbound lane between 27th and 28th street. Knowing that this construction will slow down eastbound traffic, we are encouraging schools and spectators to take the Martin Luther King Jr. Parkway exit rather than the 31st street exit when traveling to the state meet.
