FAQ: What if I have (too many) open weigh-ins?

A: You may have open weigh-ins means wrestlers will not be available for upcoming weigh-ins. To fix this issue: Go to your schedule page and click MORE and then WEIGH-INS. This will show you the number of total weigh-ins along with the number of open weigh-ins. If you click on a wrestler, you can see the weigh-in forms that are both committed or open.

If you have any wrestlers listed on other (uncommitted) weigh-in sheets, those wrestlers won't be able to be added to a new weigh-in sheet. You may need to commit other weigh-in forms to free up the wrestlers for upcoming weigh-ins.

FAQ: What if I have committed the wrong weight information?

A: You'll need to contact Trackwrestling directly, as any changes to an already committed weigh-in sheet need to be approved by your Governing Body Admin (GBA).

FAQ: DNP on weigh-in form

A: If you have wrestlers on a weigh in form that did not weigh in just place a check in the box next to them in the DNP column. This means that they did not participate and once you commit that will not count as an open weigh in.

Alpha Master: Essentially, a master list of all wrestlers with current assessments with their assessment data displayed in a single window.
