

2018 Regional Swimming and Diving Manual

GUIDELINES FOR MEET WARM-UP

Prior to any athlete entering the water to begin warm-ups, there shall be a meeting that includes head coaches and captains from each team and officials. The criteria to be reviewed should include, but not limited to: warm-up procedure, pool environment, water depth at both ends, uniform rules, starting blocks, lane selection, emergency procedures, conference rule differences, lifeguard responsibilities and other pertinent issues. In addition, the following guidelines are recommended for warm-up procedures at all meets:

- A designated supervisor whose sole responsibility is to observe the warm-up pool shall be on duty prior to any athletes entering the pool/diving well and throughout the entire warm-up period.
- Swimmers shall enter the water feet-first except for starts, which are limited to specific lanes.
- Specify Lanes 2 and 7 (eight-lane pool) as one-way sprint lanes with racing starts permitted at the starting end of the pool.
- Place a cone marker or similar sign on starting platforms in lanes not specified as one-way sprint lanes.
- Specify center lanes for circle swimming (two lengths of the pool beginning at the starting end of the pool).
- Specify the outside lanes as pace lanes (swimmers swim one or two lengths from an in-water push-off position from the starting end of the pool.)
- May specify lanes for relay practice during the last 15 minutes of the warm-up.
- Coaches should stand at the starting end of the pool and verbally start swimmers for sprint or pace work.
- Swimmers should not be allowed on a starting platform when a backstroker is executing a start in the same sprint lane.
- Swimmers shall not swim in the area where the diving warm up is occurring.
- Pool shall be closed during the coaches meeting.

Meet management or designated officials may remove a swimmer, coach and/or team from the deck for violations of these recommendations. In facilities that have a warm-up and/or warm-down areas, management shall provide supervision of the area(s) at all times.

REGIONAL MEET TIME LINE

Wednesday, October 17

Swimming & Diving Meet Entry Links Posted Online

Monday, October 22

Diving Entries must be emailed to Jason Eslinger at: jasoneslinger@ighsau.org

Tuesday, October 23

Regional Diving Warm-up Schedule will be posted on the IGHS AU website

Wednesday, October 24

Diving Sheets are due. Sheets must be emailed to the meet manager

Swimming Online Entries are due. Team entries are to be submitted and declared using the online entry form. Coaches will be emailed psych sheets of their entries Wednesday evening. Coaches must e-mail **Jason Eslinger** to verify that they have received those psych sheets.

Hy-Tek Files will be sent to regional diving sites

Thursday, October 25

3:00 p.m. – Pool Opens for divers to warm up as assigned

4:00 p.m. – Diving Sheets finalized

5:00 p.m. – Diving Competition begins

A tentative list of State Diving qualifiers will be posted Thursday evening

Friday, October 26

Regional Hy-Tek meet file will be sent to regional swim sites with diving results scored.

Saturday, October 27

8:00 a.m. – Swimming Entries Final

10:00 a.m. – Coaches Meeting

10:30 a.m. – Pool open to swimming warm-ups as assigned

Noon – Swimming competition begins

A tentative list of state qualifiers will be posted Saturday evening.

REGIONAL MEET INFORMATION

There will be four regional diving meets and six regional swim meets. Diving will be held on Thursday, October 25 and swimming will be held on Saturday, October 27 to qualify for the State Meet at the Marshalltown YMCA/YWCA on November 2-3, 2018.

REGIONAL DIVING PROCEDURES

Regional diving meets will be held on Thursday, October 25. Regional diving will consist of four regionals. Each swimming regional winner automatically qualifies for the state meet (a total of six automatic qualifiers), plus the next 26 highest scoring divers (including ties) for a total of 32 state-qualifying divers.

Judging at the four meets will be as follows: A total of seven judges (three officials and two coaches per swim region selected by lot will comprise the judging panel. (Rule 9-6-4, the two high scores and the two low scores will be eliminated from the scoring procedure on each dive.) Schools competing in diving must have a coach available to judge in the regional competition. Awards will be distributed at the conclusion of the regional diving meets. Points will be distributed by swimming region. **In the event that more than 16 divers compete in a regional, the protocol for diving cuts outlined in Rule 9-4-4 & 9-4-5 (page 81 in the 2018-2019 rule book) will be followed.**

Regional warm-ups will begin at 3:00 p.m. with meet time commencing at 5:00 p.m. Diving warm-ups will be separated by the number of divers and proximity in two 40-minute increments, with the last 20 minutes to be an open warm-up (40-40-20, similar to the warm-up schedule utilized at the State Meet).

Regional diving entries will be due the Monday prior to the regional meet (swimming entries will still be due on the Wednesday before the regional meet) with a formal warm-up schedule issued by the IGHS AU that will be posted on the IGHS AU website and sent to the four diving meet managers. Regional host teams may have their team practice during warm-up.

REGIONAL TICKET PRICES

Ticket prices during regional tournament play shall be \$6.00 for adults and students (K-12). Do not charge any child who is not yet in school.

IGHSAU-SPONSORED EVENT TICKET POLICY

The IGHSAU will only send roll tickets to schools serving as hosts who request them. You may now utilize your own roll tickets and avoid the return shipping costs of the IGHSAU roll tickets. Please keep in mind that you are still responsible for following the ticketing procedure as outlined below if you utilize your own roll tickets. If you wish to have IGHSAU tickets mailed to you, please contact Sherry Tegtmeier at the IGHSAU, 515-401-1839 or via email at sherry@ighsau.org.

IGHSAU Board policy requires member schools serving as hosts to:

- *Collect the money for the tickets sold;*
- *Tear ticket(s) off the roll in consecutive order and then tear the ticket(s) in half or have the person at the entrance door tear the ticket(s) in half and deposit them in a receptacle, there upon the spectator may enter the tournament venue.*

The proper handling of any cash demands a set of checks and balances to protect the schools, volunteers and employees against everything from unintentional errors of addition and subtraction to the potential of fraud. Many of our member schools have adopted these ticketing procedures and are currently utilizing it for non-athletic events and activities.

Please report to us the beginning and ending numbers of tickets you used for any particular tournament series (see enclosed reporting form for example). You will also find the appropriate form on our website under “Coaches & Administrators” – “Swimming” “Tournament Report Form”. Please print, complete and forward the tournament report form with the check after you have hosted **your last event for that tournament series.**

REMINDER: All gate receipts must be received in our office no later than 30 days from the Regional Final date. If we do not receive your gate receipts within this 30-day period, we will then notify the Athletic Director at your school and you may be in jeopardy of not receiving 20% of your gate.

PASS-OUT TICKETS

You are urged to avoid pass-out tickets. A good rule to follow is “if you’re in, you’re in and if you’re out, you’re out.” In the event that it is necessary to give pass-out tickets, it is suggested that a rubber stamp be used to mark the back of a person’s hand. In this event, it is necessary to change the type of stamp each tournament day.

LOCKER ASSIGNMENTS AND TOWELS

Swimmers will be assigned a section of individual lockers in the dressing rooms. Each swimmer should bring a towel and padlock for their locker.

OFFICIALS

The IGHSAU will assign three officials for the Diving event on Thursday and three officials for the Swimming events on Saturday, all at the expense of the IGHSAU.

OFFICIAL ATTIRE

Officials working regional and state swimming and diving meets are required to wear a white shirt with khaki pants. White official shirts can be purchased through the Image Sport website (www.imagesport.com)

DIVING ENTRIES

Regional entries will be done online. With diving having three sites, coaches must enter their regional diving competitors via e-mail to Jason Eslinger at jasoneslinger@ighsau.org. Regional Diving Entries must be submitted by 4:00 p.m. Monday, October 23.

SWIMMING ENTRIES

Each regional site will have a specific web page that head coaches will use to declare their entries online. Head coaches will be e-mailed their user name on Monday, October 16 to access the online entry page. Regional entries must be submitted online no later than 4:00 p.m. Wednesday, October 24. Failure to meet this deadline will result in swimmers not competing in the regional meet.

REGIONAL & STATE TOURNAMENT DIVING SHEET

The electronic Excel diving sheet must be used and submitted for both the regional and state meets. The electronic form is available for download by going to the coaches and administrators section in the IGHS AU website and then clicking on swimming and diving. The completed Diving Entry sheet (per Rule 9-3-5), must be in the hands of your Regional Meet Manager no later than 4:00 p.m., Wednesday, October 24. While a diving sheet needs to be sent to the host site Oct. 24, changes to the diving sheet can be made one hour before the start of the competition.

REGIONAL SWIMMING WARM-UP PROTOCOL DURING BREAKS

All regional sites must have one designated lane for relays and one for starts during the designated breaks.

COOL DOWN PROTOCOL – NEW FOR 2018

The Swimming & Diving Advisory Committee established new cool down protocol during regional meets. Prior to the meet, each school will be assigned a lane (smaller squads may share a lane with another school). There will be a five-minute cool down period at the conclusion of each event. After all of the heats of a regional event have concluded, all swimmers will be allowed in the main competition pool to cool down in the main pool. Regional sites that have cool down facilities may utilize those areas during the five-minute break period.

DO NOT MISS THESE IMPORTANT DEADLINES.

Due to the entry deadline of Wednesday, Oct. 24, any updates/changes to individual entries are to be declared by the team coach by 8:00 a.m. (Saturday). If you have changes contact the site manager via phone/e-mail. This includes verification and updating of entries. Relay cards should only declare personnel of the relay team and alternates. If a coach does not show up for the Coaches' Meeting, the diving and entry sheet will become official entries for the school at the Regional Meets.

Regional host Athletic Directors will be sent the seeded Hy-Tek regional meet file Friday morning. This format does not change the fact that coaches can make changes the day of the meet or prior to the meet.

ENTRY LIMITATION

Iowa Adaptation to Rule 3-1-1: Each school may enter three participants for individual events and one relay team for each relay event. Rule 3-2-1: Each individual swimmer may enter a maximum four events, no more than two of which may be individual events.

SEEDING

Times submitted on the entries will be used to seed the swimmers and relays. Diving order will be drawn by lot. Remember, only times gained in 25-yard pool meet competition may be used for seeding purposes. If a swimmer does not have a time in the event entered, she must be seeded with a "No Time". Individual times must be actual times achieved by those competitors in that event(s). Relay times must be actual times achieved in meet competition. Protests related to verification of seed times must be resolved by the 10:00 a.m. Coaches' Meeting. Verification will be done by QuikStats or official meet results. Penalty of the protest being upheld will be re-assignment of lanes and heats using "No Time".

Seed times should be rounded to a hundredth of a second by dropping off all thousandths. Example: 51.111 and 51.119 would be rounded to 51.11 as a seed time.

SCORING

Rule 7-1-3, points awarded on the basis of sixteen places.

AWARDS

Medals for first-sixth place finishers in both individual and relay events will be awarded. All regional team champions will receive a banner.

"TICKET PUNCHED" BANNERS

Regional site managers will receive a "Ticket Punched" banners. These banners will be given during the awards ceremony to the regional champion. The four swimmers on the regional champion relay team will also receive banners. We encourage regional champions to take photos and send them to the IGHS AU so we can recognize them on the IGHS AU's social media platforms. NOTE: Schools hosting more than one regional diving meet will receive a Ticket Punched banner for both regional diving champions.

REGIONAL TIME SCHEDULE

Thursday, October 25 (Diving)

- 3:00 p.m. Pool opens for warm-up (divers only)
- 4:00 p.m. Diving sheets must be in (coaches meeting on deck)
- 5:00 p.m. Regional Diving Competition

Saturday, October 27 (Swimming)

- 8:00 a.m. Entry Deadline (finalized) e-mail /phone the site manager with any changes prior to 8:00 a.m.

All entries are final at 8 a.m.

- 10:00 a.m. Coaches' meeting
- 10:30 a.m. Pool opens for swimmers (after coaches' meeting) 11:45 a.m. Pool closes
- 12:00 noon Regional Swimming Competition

ORDER OF EVENTS

All swimming events will be run as timed finals.

200 Medley Relay

200 Freestyle

200 Individual Medley

50 Freestyle

20 Minute Break

100 Butterfly

100 Freestyle

500 Freestyle

200 Freestyle Relay

15-minute break

100 Backstroke

100 Breaststroke

400 Freestyle Relay

COACHES' MEETINGS

Matters to be decided at Diving Coaches' Meeting (Thursday): (1) select four of the coaches in your Regional to be diving judges (two coaches selected from each region, selected by lot and (2) make all final changes on your diving sheets.

Matters to be decided at Swimming Coaches' Meeting (Saturday): (1) Scratch any swimmer that is ill or not competing if she is listed on the entry sheet and follow the rules on an ill competitor and note which alternate is taking her place if she is swimming in a relay, and (2) select Regional Coach of the Year and Senior Scholastic Achievement Recipients

STATE MEET QUALIFIERS -- NEW

Qualifying Standard: A qualifying standard will be set in each individual swimming event. The time standard will be the average of the 16th place time (the last scoring position) from the last five State Swimming and Diving Meets in each event. Swimmers can qualify for the state meet if this standard is achieved at an official IGHS AU-sanctioned meet in a fully-automatic timed (FAT) yard pool in the regular season. All times must be verified in QuikStats. Times from lead-off legs in relays are eligible as long as the time is a FAT time.

Regional Meet: The regional meet still plays an important role in qualifying for the State Meet. Coaches will still need to enter swimmers and divers into the regional meet regardless if the swimmers have met the qualifying standard. **Swimmers must be entered in the regional meet to compete at the State Meet. Athletes must also compete and legally finish in the event at regionals to qualify for State. If a swimmer is disqualified at the regional meet or does not finish the regional event, they will not be allowed to compete in that event at the State Meet even if they had achieved the qualifying standard during the regular season.**

The field of 32 State qualifiers consists of all swimmers that have met qualifying standard and competes in that event at the regional meet. The rest of the qualifying field will be filled from the next fastest regional times from swimmers that did not meet the State standard during the regular season. Regional champions from each event are auto qualifiers for the State Meet regardless of time.

Relays: There are no qualifying standards in the relay events. Regional champions, plus the next fastest 26 times, will qualify for the State Meet. Relays will be a four-heat, timed final on the Saturday evening session of the State Meet.

Diving: The process for regional diving will not change. Regional champions, plus the next 26 best diving performances, qualify for the state meet.

Regional/State FAQ's

FAQ's:

Question 1: Team A has four girls that have reached the qualifying standard for the 50 freestyle during the regular season. Can all four girls compete in the 50 freestyle at the state meet?

Answer: No. The school is allowed three entries in each regional event and all three swimmers must be entered into the regional meet in the 50 free and successfully start and finish the race to compete in the State Swimming Prelim Meet the following week.

Question 2: Mera reaches the qualifying standard in three individual events during the regular season; the 50 free, 100 free and 200 free. Her coach enters her in the 50 free and 100 free for the regional meet. At the regional meet, Mera false starts in the 50 free and is disqualified. Can Mera compete in the 200 freestyle since she reached the qualifying standard during the regular season?

Answer: No. Mera was not entered in the 200 freestyle at the regional meet and did not swim in the 200 freestyle at the regional meet. She must be entered and legally finish to compete at next week's state meet. Also, Mera does not qualify for the 50 free since she was disqualified in the regional event.

Question 3: Mallory competes in the regional meet and is the regional champion despite not reaching the state qualifying time standard all year. Does Mallory still qualify for the State Meet?

Answer: Yes. All regional champions, regardless of time, qualify for the State Meet. At the completion of the regional meet, the entries that have achieved the qualifying time standard and successfully competed in the regional meet are automatic qualifiers. If there are not 32 swimmers that have reached the qualifying standard, the next fastest times to 32 from the regional meet will be used to fill out the field of 32 (just like in state qualifying meets). If the field of state qualifiers surpasses 32 swimmers, extra preliminary heats will be added.

Question 4: Mary enters regionals in the 50 and 200 freestyle. She also swims the lead-off legs in the 200 & 400 freestyle relays. Mary does not make the qualifying standard in the 200 freestyle and is not among the top 32 swimmers. She false starts in the 50 freestyle and is disqualified. On the relays, she swims lead-off times in the 50 and 100 that are fast enough to qualify for the state meet. Can Mary compete as an individual in the 50 or 100 free since she did not qualify in the 200 and 50 free individual events?

Answer: No. A swimmer must be entered in the individual event at regionals to qualify for that event at the State Meet. A relay lead-off swim on a relay during the regular season can count towards a qualifying time, but no relay lead-off swim will count for entry in an individual event into the state meet from regionals.

Question 5: Diane qualifies for state in two individual events. After the Friday preliminaries, Diane does not qualify for the finals in one event. Can Diane compete in three relays during Saturday finals?

Answer: No. Diane has competed in two of her four events. She can participate on two relays – not three.

STATE MEET INFORMATION – NEW

The State Swimming and Diving Meet is a two-day prelim/final meet at the Marshalltown YMCA/YWCA November 2-3, 2018. Swimming preliminaries for individual events will be held at 5:30 p.m. The state diving meet will begin at 9:00 a.m., Saturday, November 3rd. Swimming finals will begin at 4:00 p.m. Saturday, November 3rd. Swimming finals in individual events will consist of two heats: a consolation heat (places 9-16) and a finals heat (places 1-8). All relays will be four heats of timed finals.

TICKETS

There are three sessions for the 2018 State Swimming & Diving Meet.

Friday, November 2

5:30 p.m. Swimming Preliminaries: Adults & Students - \$10.00

Saturday, November 3

9:00 a.m. Diving Competition: Adults & Students - \$10.00

4:00 p.m. Swimming Finals: Adults & Students - \$10.00

HANDLING BODY FLUIDS: DURING THE CONTEST, CONTEST OFFICIALS' LIMITS OF RESPONSIBILITIES

An examination of interscholastic sports rulebooks reveals there is little direction given officials regarding the handling of body fluids during a contest. Any mention that does exist is vague at best, and no rulebook outlines a protocol that officials are to follow. Therefore, the purpose of this document is to provide officials information regarding their responsibilities during a contest should an injury or illness occur which results in an athlete losing blood or vomiting in the competitive area.

In the event an athlete sustains an injury or becomes ill during a contest on the competitive surface or in close proximity such that the problem affects play or the continuation of the contest, IGHS AU officials shall take the following steps:

Stop the contest at the point the problem is recognized. The IGHS AU recognizes some rulebooks make specific statements about play interruption. All rulebooks have an "elastic clause" which allows an official to take whatever action may be required.

Do not administer first aid to any athlete except to comfort the athlete until those designated to administer first aid arrive.

Do not take part in handling blood, vomit, feces, pus or other body fluids.

Officials shall professionally monitor the situation as observers, keeping in mind the rules addressing interruptions, stoppage of play, starting play, and other specific rules that may apply.

Officials with qualified training shall avoid participating in first aid treatment except when there is absolutely no other alternative.

Uniform rule – If through injury or illness the uniform of a contestant becomes contaminated with body fluid, the official will disregard rulebook codification on penalties for changing the participant's uniform.

The IGHS AU supports officials and coaches who are responding to a situation with the philosophy that the welfare of the injured player always comes first. We ask officials to be aware of their responsibilities and limitations as outlined above, with the understanding school personnel (coaches, trainers, etc.) are responsible to work directly with the injured or ill player

IOWA GIRLS' HIGH SCHOOL ATHLETIC UNION'S POLICY ON THE PRESENCE OF BLOOD DURING ATHLETIC CONTESTS IN GRADES 7-12

Before competing, cover any open wounds.

When a contest official observes an athlete bleeding during competition, competition shall be stopped on completion of the play or action in progress. Injuries creating visible bleeding shall be treated as any other injury in that the injured athletes shall be removed from the contest for the length of time specified by that sport's injury rule and given proper attention.

As a point of reference, the specific injury rules for basketball, softball and volleyball are:

Basketball – A player who is injured to the extent that the coach or any other bench personnel comes onto the court shall leave the game and may not return until the first opportunity for such player to return.

Softball – Time shall be called when a player is injured and the appearance of blood is observed. Bench personnel will be allowed to spend reasonable time to cover and clean the wound before requesting a substitute. The pitching hand by rule may not be covered in part or whole by any substance. If the pitcher has an open wound on the hand that produces blood, she must be removed as pitcher until the problem is solved.

Volleyball – Time shall be called when a player is injured and the appearance of blood is observed. Bench personnel will be allowed to spend reasonable time to cover and clean the wound before requesting a substitute. A participant shall not continue competition until the bleeding is controlled and the wound covered.

For those sports not having a specific injury rule, the official shall allow sideline personnel to attend to the bleeding athlete for a reasonable amount of time before requesting a substitute. An athlete shall not continue competition unless the bleeding is controlled and the wound is covered. Any athlete who has left the contest due to bleeding shall not re-enter the contest until the bleeding has been controlled and the wound covered.

When a contest official observes an excessive amount of blood on a participant or their uniform that participant shall leave the contest for the length of time specified by the sport's injury rule and the blood shall be wiped from the participant and/or their uniform. If a team does not wish to remove the player from the game, one of its charged time outs may be used during which time the blood shall be wiped from the contestant. If the blood appears immediately prior to a quarter, halftime, or overtime intermission, sideline personnel may use such intermission to wipe the blood from the contestant. For those sports not having a specific injury rule, the official shall allow sideline personnel to wipe the blood off the athlete and play shall be resumed. An excessive amount of blood is that amount which could be easily transferred from one athlete to another.

Any time a contest is stopped due to blood being present, any washable surfaces (i.e. gym floor, pool deck, equipment) contaminated with blood shall be properly cleaned using OSHA accepted standards and procedures before competition resumes.

Athletes should render first-aid to themselves or first-aid shall be administered by sideline personnel, not by contest officials. The risk of contracting the AIDS virus as a contest official or participant is minimal. There are no documented cases of AIDS being transmitted through athletic participation.

CONCUSSIONS

Due to the increased focus on minimizing the risk for athletes exhibiting signs, symptoms and behaviors of a concussion, the National Federation of State High School Associations (NFHS) has placed the following language in all sports rule books beginning in 2010-11.

“An athlete who exhibits signs, symptoms or behaviors consistent with a concussion (such as loss of consciousness, headache, dizziness confusion, or balance problems) shall be immediately removed from the contest and shall not return to play (that day) until cleared by an appropriate health-care professional.”

NFHS SUGGESTED CONCUSSION MANAGEMENT

No athlete should return to participation (RTP) on the same day of a concussion.

Any athlete suspected of having a concussion should be evaluated by an appropriate health-care professional that day.

Any athlete with a concussion should be medically cleared by an appropriate health-care professional prior to resuming participation in any practice or competition.

After medical clearance, RTP should follow a stepwise protocol with provisions for delayed RTP based upon return of any signs or symptoms.

The following protocol is intended to implement the NFHS concussion rule in Iowa and minimize the risk of any athlete who is exhibiting signs, symptoms and behaviors of a concussion.

Education of contest officials, school coaches and other appropriate school personnel, contestants, parents, and appropriate health-care professionals.

The IGHSAU will provide a variety of educational materials developed by organizations knowledgeable about concussions to help the above individuals recognize the signs, symptoms and behaviors of a possible concussion, appropriately manage concussions.

Removing an injured athlete from competition and deciding whether he or she has sustained a concussion.

The contest officials' responsibility is to recognize an athlete may have an injury and remove him or her from the contest. Once they have removed the athlete from the contest the officials' responsibility for the athlete's safety is over and the athlete is in the care of the school's coach(es) and any appropriate health-care professional(s) the school designates to provide care.

If an athlete is exhibiting signs, symptoms and behaviors consistent with a concussion she or he shall not return to competition for the remainder of that day until cleared by an appropriate health-care professional. If an appropriate health-care professional is not available, the athlete shall not return to competition the remainder of the day.

NOTE 1: Each local school needs to determine who (either individually or by group) they consider to be appropriate health-care professional(s) qualified to decide if an athlete exhibiting signs, symptoms and behaviors of a concussion may return to competition on the same day the injury occurred. Schools may develop a formal process for return to competition on the day of injury, including requirements for written clearance by the appropriate health-care professional(s) the school has designated. Medical experts in concussion management believe appropriate health-care professionals making these decisions should have extra training in sports-related concussions.

The athlete's parents/guardians should be contacted regarding the athlete's injury and it should be recommended an appropriate health-care provider evaluates the athlete before he or she returns to any type of practice and/or competition.

Return to participation (practice and competition) protocol should be followed as determined by an appropriate health-care professional before allowing an athlete who has been concussed to return to any kind of participation (practice and/or competition).

Note 2: Each local school needs to determine who (either individually or by group) they consider to be the appropriate health-care professional(s) qualified to release a concussed athlete to any kind of participation (practice and/or competition). Schools may develop a formal process for return to participation following concussion, including requirements for written clearance by the appropriate health-care professional(s) the school has designated. Medical experts in concussion management believe appropriate health-care professionals making these decisions should have extra training in sports-related concussions.

In cases where the IGHS AU have designated an appropriate health-care professional for their sponsored events/tournaments, the decision of that health-care professional regarding an athlete who is exhibiting signs, symptoms and behaviors consistent with a concussion returning to competition at any time during those events/tournaments shall not be overruled.
